

HEDGE FUND - HOTEL

The Varengold Hedge Fund Hotel offers innovative managers the chance to establish themselves in the supreme discipline of the financial markets and to successfully realize the ideas and concepts they develop.

The move to self employment always contains risks. The manager will be able to focus on his core competencies from the outset by using the Varengold Hedge Fund Hotel, namely to concentrate on implementing his trading approaches. For this Varengold Investment Bank AG (Varengold Wertpapierhandelsbank AG) makes the necessary framework of conditions available and supports the manager from his very first steps right through to market expert:

- **Consultant for the further development and optimization of the trading strategies**
- **Legal set-up, compliance**
- **Back office IT and infrastructure management over the bank's own Managed Account Platform**
- **Risk management and controlling**
- **Marketing & reporting**
- **Sales organization**

The strategies we presently endorse are CTA and managed futures strategies and long/short equity strategies, whereby there are no specific limitations in the area of investment styles and tradable markets.

For extensive information on the subject of the Hedge Fund Hotel, Mr. Lukas Diehl (Tel. +49 40 668 6490) will be pleased to be at your service at all times.
